

SAVE EMS ON THE MOUNTAIN

PROTECT OUR EMERGENCY MEDICAL SERVICES IN DEER MOUNTAIN

Why We Need Your Help

Deer Mountain Fire Protection District provides life-saving EMS services to our community—but our current funding availability is running out. EMS is paid for from the fire department's budget, which has drained reserves and is no longer sustainable. Without your support, we will lose our EMS coverage on the mountain.

What's at Stake

- Local emergency response when minutes count.
- DMFPD EMS staffing.
- Local ambulance operations.
- Risking no ambulance response from AMR or other agencies if they're already on a call.

Bottom Line:

**Losing EMS means longer wait times, delayed care,
and greater risk to you and your family.**

The Ask

We're asking voters to approve a mill levy increase this November to secure funding for EMS services.

Property Owner Cost

Approximately \$47 per \$100,000 of assessed property value (not market value).

Why Vote YES

- This is a modest increase compared to other Colorado fire districts.
- The last funding increase was in 2011 — costs have gone up since then.
- EMS services protect our lives and our property values.

Get Involved

- Join us at 1 p.m. for our Town Hall Meetings: **August 16 | September 20 | October 18**
- Learn More: DMFPD.org
- Submit Questions: Board@DMFPD.org
- Vote YES in November to keep EMS in Deer Mountain Fire Protection District!
